Frontend

React / Next.js / JS (ES6) / TypeScript / HTML / Styled-components / CSS / Tailwind

Design

Figma / UX/UI Principles / Responsive Design

Backend

Node.js / REST APis / Express.js

Tools

NPM / Git / VS Code / GitHub / PNPM / Yarn

PROJECTS

Coffee Delivery
- E-commerce application for a coffee shop that allows users to:
    - Browse product catalog with a responsive and intuitive interface
    - Filter products by categories and customize orders
    - Manage shopping cart with automatic value calculation
    - Complete the purchase flow with delivery form and payment selection
- **Technologies:** React, TypeScript, Styled-components, Radix, Context API for state management

Link: https://coffeedelivery.netlify.app/

Timer App
- Pomodoro-style time management application that offers:
    - Creation of tasks with custom name and specific duration
    - Visual countdown with progress indicators
    - Detailed history of completed and interrupted tasks

- Data persistence system using localStorage
- **Technologies:** React, TypeScript, Styled-components, React Router, React Hook Form

Link: https://ignit-timer.netlify.app/

Todo App
- Task management application that includes:
    - Minimalist interface for adding, marking, and deleting tasks
    - Visual progress system with counter for pending/completed tasks
    - Responsive design for use on mobile and desktop devices
    - Field validation and visual feedback
- **Technologies:** React, TypeScript, HTML5, CSS3, JavaScript

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

WORK EXPERIENCE

Frontend Developer
Isainho SRL [2024 – 2025]

City: Bucharest | **Country:** Romania

- Responsible for developing and maintaining Hocli.com, a modern web3 e-commerce platform specializing in custom-designed t-shirts with secure Ethereum-based cryptocurrency payments.
- Utilizing a contemporary technology stack including Next.js 15, React 18, Tailwind CSS, and TanStack (React) Query, my daily responsibilities include:
    - Collaborating closely with designers to accurately translate Figma UI designs into functional, interactive React components.
    - Refining interfaces in line with UI/UX best practices to ensure an intuitive, engaging, and seamless user shopping experience.
    - Implementing responsive design techniques with Tailwind CSS, ensuring optimal display and functionality across various devices and screen sizes.
    - Integrating frontend components with backend APIs using React Query and Axios for efficient data management and interaction.
    - Continuously refactoring and organizing frontend code to enhance maintainability, scalability, and facilitate future feature developments.

Frontend web developer
Student/Freelancer [2022 – 2025]

City: Bucharest | **Country:** Romania

- Developing responsive and dynamic frontends using React, HTML, CSS, JavaScript, React and Next.js focusing on creating intuitive and appealing interfaces.
- Implementation of Figma designs into code with high visual fidelity
- Performance optimization in front-end web applications

- Creation of reusable components following design system principles
- Development of simple APIs with Node.js and Express to support frontend projects

IT Internship

Eaton [2021 – 2021]

City: Porto Feliz | **Country:** Brazil

- Participation in IT infrastructure projects focusing on user experience
- Development of materials and conducting training for internal systems
- Technical support for international users, practicing English communication
- Collaboration in multidisciplinary teams for IT solution implementation

Administrative Assistant

City Hall [2014 – 2017]

City: Itu | **Country:** Brazil

- Oversaw the hiring process, ensuring document compliance with position laws and regulations.
- Implemented improvements in the computerized system with the software company.
- **Achievements:** Identified the need for software enabling employees to check their payslips online. After presenting an action plan to the department director, it was successfully implemented.
